

### Help Create a Vision for Four Mile Run Valley!

The 4MRV initiative looks to shape the primarily industrial/commercial and recreational areas in the southern end of Nauck, adjacent to Shirlington Village along the Four Mile Run Stream (see map on reverse). This Arlington County effort builds on the strong residential neighborhoods, successful businesses, its open and recreational spaces while preserving the strong community connections, history, heritage and the Four Mile Run stream.

### Working Group Meetings Starting in June:

A citizen Working Group, which includes residents and business and property owners from Nauck, Shirlington and neighboring areas, has been appointed by the County Board to work with staff over the next 18-24 months to complete this vision.

**Stay Informed and Get Involved:** Residents, business owners, and others interested in the area are invited to attend Working Group meetings and community workshops, as well as participate through online outreach.
