

Dear 4MRV Working Group --

On Tuesday, April 27, the Park and Recreation Commission (PRC) met and reviewed the options currently under consideration by the Jennie Dean Park committee. For our discussion we used as background information, the report provided by Jennie Dean Park Committee Chair Elizabeth Gearin and mockups provided by staff. We recognize that the Park committee is still meeting and that there could be additional design changes based on input from various parties. Nevertheless, we determined to have a vote to see where commission members were currently leaning. The commission supported Option 2 with 8 votes, to 3 votes for Option 1.

The PRC will continue to participate actively in the 4MRVWG process as this moves forward.
