

Columbia Pike Utility Undergrounding & Streetscape Improvements West End - Arlington/Fairfax County Line to Four Mile Run

Construction Update January 8, 2021

Construction activities planned for Monday, January 11 through Sunday, January 24 and their expected impacts are described below. This work is weather dependent and subject to change.

Construction Activities

- Electrical work at the intersection of South Columbus Street and Columbia Pike will require intersection outages during phases of work to start week of January 18.
- Continue landscaping and pavement markings at various locations.
- Installation of split rail fence at Fredrick Courts Condominiums.
- Continue construction of transit station foundations.
- Continue signal work at Jefferson Street intersection.
- Begin permanent sign installation.

Lane Closures

- One eastbound and/or westbound right lane on Columbia Pike will be closed between the County line and the Four Mile Run Bridge during work hours to facilitate landscaping, pavement marking, transit stations foundations and other miscellaneous work.

Driveway Impacts

- The following driveway entrance will remain closed until a traffic signal is installed:
 - One-way exit-only road on the north side of Columbia Pike at the Jefferson Street intersection (road for commercial building)
